Two Year Olds

# Nichols Farms

## Private Treaty Bull Sale

*64 Years of Superior Beef Genetics*

*"Large or small, old or new - Nichols customers are our friends, and can expect the same level of performance and service from our seedstock and our team... and you become a part of the Nichols family."  
Come and take a look at some of the best bulls in the beef industry. —dave nichols*

# NICHOLS BULL EXTRA - PROVEN PERFORMERS

**W**e're offering the yearling herd bulls that pasture bred our cows and heifers this year. These **Power Bulls** have amazing weaning weight, rates of gain, yearling weight and \$Value EPDs. They rank at or near the top in the seedstock industry.

**dave nichols**

They are the "best of the best"— that's why we used them. Their sons will be in our bull barn and for sale next year and their daughters will be grazing our pastures.

Nichols Farms was the first herd (1987) to utilize ultra-sound to measure IMF% (marbling) and lean yield (yield grade).

Nichols Farms is the clear leader in utilizing DNA technology. The past twelve years **Nichols herd sires** have been evaluated by DNA for the entire suite of traits including feed efficiency. Plus they are free of genetic abnormalities by pedigree or DNA tests.

About 40 Nichols Bulls have stood in major A.I. Studs the past 50 years. Many of them were offered in the Bull Extra sales.

Call or visit - select one or more of these bulls that are ready to go to work in your herd. Semen checked. \$100 off the price, if you pick them up.

## Headquarters for Heterosis

**Crossbred cows producing Composite sired calves provide a 23.3% Improvement in Pounds of Weaned Calf per cow exposed over straight bred cows and calves!**

—USDA Meat Animal Research Center

**South Devon** cattle are an English breed whose traits compliment both English and Continental cattle breeds. They are known for their maternal longevity and docility.

Cow/calf producers that wanted high levels of heterosis, fertility, low feed intake, and high weaning weights found South Devons delivered.

In the nation's feedlots, South Devon cross bred steers have excelled with hybrid vigor, feed efficiency, superior carcass merit, especially marbling and tenderness.

# Welcome to Nichols Farms

## Sale Terms and Conditions - 2018

**Bulls will be semen checked prior to pick up or delivery.**

**Nichols Farms offers death and loss of use warranty on their sale bulls. This warranty must be purchased at time of sale.**

**Bulls** are guaranteed to service cows. Any bull that settles healthy cows by natural service or passes a fertility test made by a certified veterinarian mutually agreed upon by Nichols Farms and buyer shall be considered a breeder.

The following exceptions apply to all breeding animals sold by Nichols Farms.

- Animals put in service or bred at less than 12 months of age.
- Injury or disease to the animal occurring after the sale.
- Gross negligence or misconduct on the part of the buyer.

- ✓ *Volume discounts*
- ✓ *Health & Death Warranty (limited)*
- ✓ *\$100 off if you pick up your Bull(s)*
- ✓ *Free of Genetic Abnormalities— AM, NH, MI, CA, DD, MI, TH, and PH by pedigree or DNA test*

**[www.nicholsfarms.biz](http://www.nicholsfarms.biz)**

**Justin Dammann** visits with Ross Havens about cross-breeding plans that will maximize heterosis and increase profit in his herd, which is located near Essex, Iowa. He has purchased 56 herd bulls from Nichols Farms the past six years.

Regardless of herd size, "Team Nichols" always stands ready to help their customers adopt a simple breeding plan, and will suggest bulls that will get the job done. Plus Ross will notify selected feedlots when their calves sell.
